Pilot Experience:

‘The questions were easy to answer because they were multiple choice. The quiz didn't take long to fill out, and it was clear to follow.’

‘The results, it was a great help. I have thought about some of my options that have appeared before’.

You focus on tasks with care and high standards, coming up with good, original solutions. You can express yourself succinctly, especially written down. This makes you a good leader, but you may need to take the feelings of others into account even when it feels a waste of time.

MAUVE

Naturally warm, enthusiastic and imaginative, you enjoy involving others in your ideas and enterprises. You have excellent problem-solving skills, initiative and confidence. You work best when you receive praise for your efforts and enjoy praising others in return.

When approaching interesting tasks, you have enormous energy, but need to remember to pace yourself so that you don't get run down. Once the problem or task has been resolved you can quickly get bored, and you may be keen to hand it over to someone else.

You really don't like routine or taking orders from others, instead preferring to work on projects that you believe in and where you can lead or persuade others. For this reason, you may work best in a role where you have little close supervision or should even set up and run your own business.
