Empowering people to make successful transitions and achieve their career potential

We are delighted to welcome you to the
**Complete Careers/Career
Mark Primary Conference:**

**'Introducing Career Related
Learning in Primary Schools'**

Tuesday 15th November 2022

9.30am - 1.00pm

enquiries@complete-careers.com
www.complete-careers.com

We successfully delivered our first ever Primary Careers Conference on the 15th November 2022 with the focus on 'Introducing Career Related Learning in Primary Schools' We were delighted with the attendance with over 50 participants including school staff from a wide range of geographical areas and different organisations. Feedback on what those most valued from the day included *'Hearing from other primary leads on how they are embedding CRL in to the primary curriculum'* and *'Great to hear different peoples perspectives'*

Those that were unable to make the conference or would like to revisit any part of the morning can access the recording and slides from the conference via the following link -

We plan to run our next Primary Conference later this year....
watch this space!

We are proud to announce that our Career Mark Primary Award is now nationally endorsed by the Quality in Careers Consortium. We achieved this in November 2022 following a successful application and interview panel. Please see the quote below from Paul Chubb the Director of the Quality in Careers Standard.

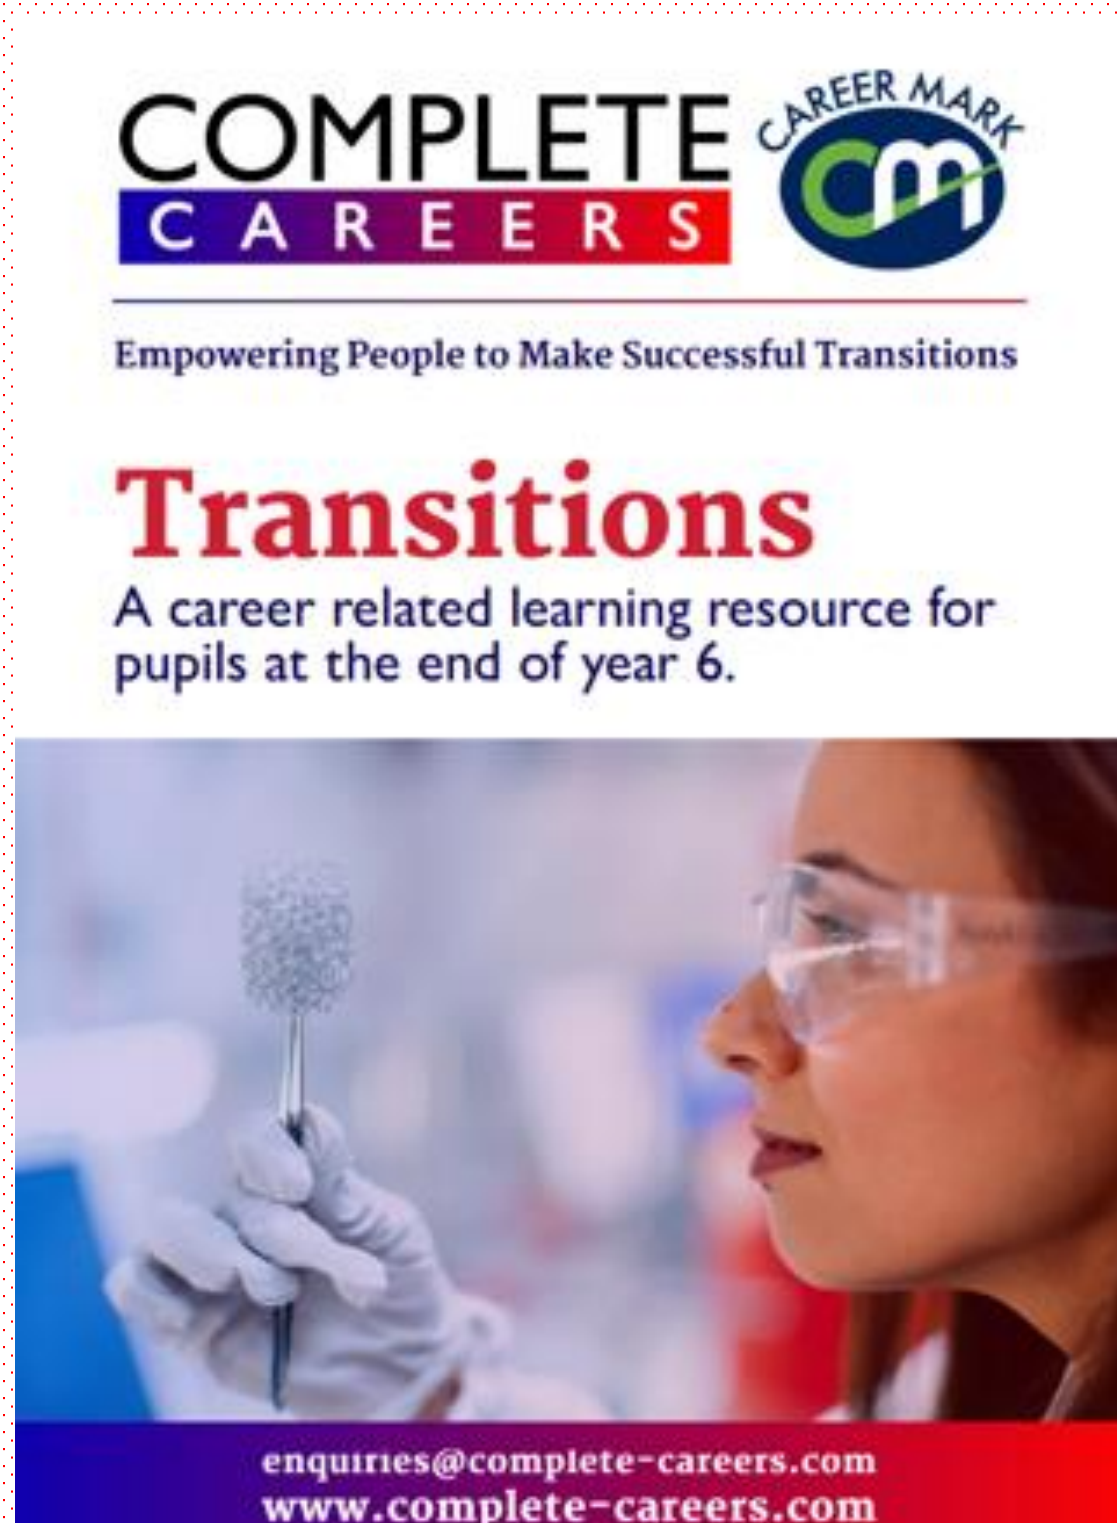

'Congratulations to @CompleteCareer on securing our National Endorsement for your Career Mark Primary quality award for careers education in primary schools at today's on-line Panel 👍'

Interest and commitment to Primary career related learning continues to grow nationwide. We continue to have new schools signing up to be Complete Careers Members, reflecting the commitment of schools to support learners through the delivery of career related learning in schools.

We were interested to follow a recent Education Select Committee meeting in January 23 which focussed on Careers Education Information, Advice and Guidance. This featured conversations and positive comments regarding Career Related Learning in Primary Schools. An interesting and informative debate. You can watch the meeting via the link below ...

THIS MONTHS FOCUS ... Transitions Resource

The resource is a great way to build the link between primary and secondary schools, preparing learners for their transition and raising self awareness. An example of good practice includes the secondary school link delivering the sessions to the year 6 learners themselves.

The Transitions Resource can be used to work towards the outcomes in the CDI Framework including the following areas

... **Grow throughout life** & **See the big picture**

A series of lessons plans for year 6 pupils

We are excited to promote our new, FREE resource for Primary schools to use with year 6 pupils. The document is available free of charge for all Complete Careers members. The resource aims to compliment and enhance career related delivery in your school.

The resource provides three sessions with the aim to help pupils to make good transitions to secondary school. It covers topics such as coping with change, decision making, occupational awareness, self awareness and action planning.

‘Transitions’ includes videos, visual hand outs and exercises including a ‘University and Apprenticeship Matching Exercise’, a ‘New School Quiz’ and ‘Mini Biographies’.

We feel it provides an engaging and interesting way to deliver careers related learning with year 6 pupils.

The resource is in line with the CDI Frameworks learning objectives and is a great way to show case your career related learning curriculum when working towards the Career Mark Primary Award.
